

Agenda Notes

42nd Meeting
of the
Senate

Venue of the meeting
Conference Hall, PDPM IIITDM Jabalpur
Date and Time of the Meeting
August 28, 2019
At 11.00 a.m.

PDPM
Indian Institute of Information Technology,
Design and Manufacturing Jabalpur (M.P.)

Agenda 42th Meeting of the Senate
to be held on August 28, 2019 at 11.00 am in the Conference Hall of the Institute

Sl. No.	Agenda Item	Page No.
Senate/42/01	Overview Report by the Chairperson of the Senate	01
Senate/42/02	Confirmation of Minutes of the 41 st meeting of the Senate held on September 11, 2018.	01
Senate/42/03	Action taken report on the decision of the Senate vide 41 th meeting of the Senate held on September 11, 2018.	01
Senate/42/04	Report of Professor I/C Academic, Professor I/C Students, Convener Library Committee of Senate (LCS), Convener Student Prize and Award Committee of Senate (SPACS) and Head Counseling Services	01
Senate/42/05	Presentation of roadmap for next five years by Heads of Disciplines	02
Senate/42/06	Recommending the names of the students for the award of the degree in the 10 th Convocation	02
Senate/42/07	Recommending the names of the students for various awards and medals in the 10 th Convocation	02
Senate/42/08	Introduction of PBI in the Seventh Semester for all UG students	03
Senate/42/09	Award of Major and Minor degree	03
Senate/42/10	Review of Academic Performance of students and Remedial action for underperforming students	03
Senate/42/11	Modification in rules: M.Tech. Dissertation submission and evaluation	04
Senate/42/12	Revision in policy for Swayam Course	05
Senate/42/13	Special Ph.D. Program for persons employed in Defense Establishments	06
Senate/42/14	Change in requirement for Ph.D. admission	06
Senate/42/15	Guidelines for the Sanction of Funds to carry out experimental work related to Research/ Project by the Students	07
Senate/42/16	Policy for the question paper moderation	07
Senate/42/17	Modification in Merit Cum Means (MCM) Scholarship rules	08
Senate/42/18	Panel of examiners for the Ph.D. thesis evaluation	08
Senate/42/19	Course requirement for PBI and PR499	08
Senate/42/20	Ratification of the approvals accorded by the Chairperson Senate	08
Senate/42/21	Any other item with the permission of the Chair	08

List of Annexures

Annexure No.	Title	Page No.
Annexure I	Minutes of the 41A Meeting of the Senate held on September 11, 2018	09
Annexure II	List of names for award of Degree	15
Annexure III	Ratification of the approvals accorded by the Chairperson Senate	37

Senate/42/01	Overview Report of the Chairperson
---------------------	---

Overview report will be presented by the Chairperson Senate during the meeting.

Senate/42/02	Confirmation of Minutes of the 41st meeting of the Senate held on September 11, 2018.
---------------------	--

Minutes of the 41A meeting of the Senate were circulated to the members **Annexure I**. No comments have been received.

The Senate is requested to confirm the Minutes.

Senate/42/03	Action taken report on the decision of the Senate vide 41st meeting of the Senate held on September 11, 2018
---------------------	--

Action taken report on the 41A meeting of the Senate is presented here:

S. No.	Agenda Item	Action Taken
Senate/41A/04	Recommending the names of the students for award of degrees during the 10 th convocation.	Will be awarded during the 10 th Convocation. Dates are yet to be decided.
Senate/41A/05	Recommending the names of the students for award of prizes and medals during the 10 th convocation.	
Senate/41A/07	Ratifications of approvals from Chairman Senate.	Informative only.

Resolution by circulation

Agenda Item	Action Taken
Appeal by students against Academic drop (Ph.D- 02, M. Tech – 04) – continuance of programme.	Allowed.

Senate/42/04	Report of Professor I/C Academic, Professor I/C Students, Convener Library Committee for Senate, Convener Student Prize and Award Committee for Senate and Chairman Counseling Services
---------------------	--

The reports will be presented during the Senate meeting by the concerned authorities.

Senate/42/05	Roadmap for next five years
--------------	-----------------------------

Heads of the disciplines will be presenting the road map for next five years before the Senate.

Senate/42/06	Recommending the names of the students for the award of the degree in the 10 th Convocation
--------------	--

List of students who have fulfilled all the requirements related to completion of degree is attached in the **Annexure II**. A summary of the same is as follows:

Programme/Discipline	B.Tech.	B.Des.	M.Tech.	M.Des.	Ph.D.
Computer Science & Engineering	96	--	10	--	2
Electronics & Communication Engineering	89	--	--	--	10
Electronics and Communication Engineering (Microwave & Communication Engineering)	--	--	7	--	--
Electronics and Communication Engineering (Power & Control)	--	--	8	--	--
Electronics and Communication Engineering (Micro-Nano Electronics)	--	--	8	--	--
Mechanical Engineering	89	--	--	--	6
Mechanical Engineering (CAD-CAM)	--	--	11	--	--
Mechanical Engineering (Design)	--	--	9	--	--
Mechanical Engineering (Manufacturing)	--	--	10	--	--
Mechatronics Design	--	--	7	--	--
Design	--	21	--	30	--
Dual Degree	--	--	3	--	--
Total	274	21	73	30	18

The Senate is requested to recommend the names of the students for the award of the degree to the Board.

Senate/42/07	Recommending the names of the students for the award of various Prizes and Medals in the 10 th Convocation
--------------	---

Various committees have been constituted for deciding the prizes and medals to be awarded at the time of the 10th Convocation. The reports of the committees are awaited. The same will be placed before the Senate during the meeting for recommending the names to the Board of Governors.

In the present curriculum, UG students are allowed to carry the Project Based Internship only in an external organization (such as Industry, research institutes, IITs).

It is proposed that students may opt for internal PBI under the supervision of one or more faculty to carry out research work.

Following is proposed for the same:

1. A student will submit the PBI registration (both internal/ external) form to the discipline.
2. DUGC will review the application for the PBI and give its recommendation with a merit list.
3. Head of the discipline will grant approval for the PBI based on the merit of the application based on the recommendation of DUGC.
4. The students carrying out internal PBI has to opt for 4 credits of courses along with PBI in that semester. For external PBI the students need to earn 4 additional credits in previous semesters.
5. Maximum 20% of the batch strength will be allowed to opt for internal PBI. Rest of the students of that batch will go for the external PBI.
6. It is proposed to introduce this scheme starting from the current 3rd year batch i.e. 2017-2020.

Senate is requested to approve the proposal.

It is the need of the hour to introduce minor degree along with major degree. The agenda requires detailed deliberation. It is proposed to constitute a committee to give its recommendation within 15 days under the Chairmanship of Dean/ PIC Academic. Also, the same committee is also proposed to suggest the changes in the present curriculum for the implementation of the same.

It is observed that some students do not perform well and are placed under "Academic Break". Despite assigning the reduced load in the semester their performance does not improve. As a result these students loose interest in attending the classes and other academic activities. The Senate is requested to suggest a mechanisms and an action plan for bringing such students to main stream and help them in improving their academic performance.

At present Masters' students are allotted Satisfactory ("S") or unsatisfactory ("X") grades for their dissertation work. It is proposed to introduce grading system for the dissertation work.

The following changes are proposed for the submission and evaluation of Masters' thesis:

- a. A student will carry out project/ thesis work during the third and fourth semester. This carries a total of 32 credits (16 credits being assigned in third semester and 16 credits during fourth semester). A student shall carry out the project/ thesis work under the supervision of a faculty member.
- b. A student may undertake thesis work internally or may undertake to execute the project/ thesis work in collaboration with an Industry, Research and Development Organization or another academic institution/University where sufficient facilities exist to carry out the project work.
- c. For the collaborative project/ research work, in addition to the Supervisor from the Discipline/ Programme, a joint Supervisor may be appointed from the Industry, a Research Laboratory or another University with the approval of the Dean Academic on recommendation of DPGC. The Joint Supervisor will be associated with the guidance and may also be associated with evaluation of the performance of the student. The internal Supervisor may, if felt necessary, visit the Industry, or the Research Laboratory or the University in connection with the project/ thesis of a student.
- d. For the purpose of assessment, the performance of a student in the project/ Dissertation work in the fourth (or final) semester will be evaluated. Performance in the dissertation for other semesters will remain same. The following is proposed:
 - (a) The student shall submit the dissertation report latest by last date of the dissertation submission (June 30 of that particular year) to the Head of the discipline through his supervisor. The head of the discipline will send the report to the external examiner for evaluation.
 - (b) The student will have to appear for defense before a committee consisting of PGPC and one external examiner on the date specified by the Head of the Discipline.
 - (c) The grades against dissertation work of 16 credits in fourth (or final) semester shall be assigned on the basis of grades (10-point) awarded in following components:

Grades Awarded by	Weightage in SPI
Dissertation supervisor	50%
External examiner based on the quality of the Masters' dissertation	25%
External examiner alongwith PGPC members based on the defense performance	25%

SPI will be calculated based on the weightage and grades received i.e.

$$SPI = \frac{8 * W1 + 4 * W2 + 4 * W3}{16}$$

Where, W1, W2 and W3 are equivalent grade point corresponding to the grade awarded in components as mentioned in the table above.

- e. A student has to have a satisfactory performance (minimum 40%) in each component separately to qualify for the degree.
- f. The thesis will be sent to the external examiner from a panel of experts approved by the Director submitted through Dean Academic. The panel will be suggested by the DPGC for examination. Such correspondence will be carried out at the level of Head of the Discipline.
- g. Defense examination will be held on or before the date fixed in the Academic Calendar. The external expert along with PGPC will conduct the defense examination.
- h. In the case a student is not able to submit the dissertation by the last date of submission, such students have to register for the next full semester and have to submit the dissertation by December 01 of that year.

The Senate is requested to approve the proposed modifications.

Senate/42/12	Revision in policy for Swayam Course
---------------------	---

Following revisions are proposed for the SWAYAM courses:

- i. At present SWAYAM and other online courses are having two credits weightage. Some of these courses have varying contact durations. It is proposed that DUGC/ DPGC shall recommend credits for the SWAYAM courses based on the length of such course. For example, a course equivalent to 3 Lecture full courses will be assigned two credits and a course having 2 Lectures full course will be assigned 1.5 credit weightage.
- ii. The students may be allowed to drop an elective of equivalent credit (open or professional) against the credits earned through the SWAYAM courses.
- iii. As the SWAYAM courses run at different times in a semester it is proposed that the course may be floated any time within one month of the start of the semester and students may register in the course.

It is further needed that in order to earn credit through the SWAYAM courses:

1. The student must register on the SWAYAM portal for the opted course and complete the course successfully.
2. She/he has to produce the course completion certificate/mark sheet/grade sheet whichever is the case maybe before the end semester examination.
3. As part of the internal evaluation of the opted SWAYAM course, there will be two exams namely, Mid-Semester and End-Semester and will be conducted by the institute course coordinator.

The Senate is requested to approve the revisions.

Senate/42/13

Special Ph.D. Program for persons employed in Defense Establishments

There are five major defense establishments in Jabalpur: Vehicle Factory Jabalpur (VFJ), Ordnance Factory Khamaria (OFK) and Gun Carriage Factory (GCF), College of Materials and Management (CMM) and 506 Workshop apart from several Army units. These establishments have working professionals with vast experience. Request has been received from the professionals to carry out the Ph.D. from the Institute.

As they are in the vicinity of the Institute, it is proposed to start special part time Ph.D. programme especially for the working professionals employed in the defense establishments.

It is proposed that

- i. Such candidates will be recommended by their parent department and approved by the DPGC of the concerned discipline for the PhD admission.
- ii. Most of their work will be carrying out at their parent department only.
- iii. For such candidates residence requirement will be waived. Further, they will be given waiver for Communication English course and teaching credits but they need to fulfill all other requirements of Ph.D. programme.
- iv. The candidates will have a supervisor from the Institute and one external supervisor from the concerned establishment.
- v. A MoU will be signed with all establishment/unit for the purpose.

The Senate is requested to approve the programme.

Senate/42/14

Change in the requirement for Ph.D. admission

Presently it is mandatory for the Ph.D. admissions that the applicant must have qualified GATE/CEED/(CSIR/UGC-JRF/NET) or equivalent examination conducted at National Level. However, as per CSIR/UGC a candidate is eligible for the fellowship only when he/she has qualified JRF. In view of the same, it is proposed to modify the rule as follows:

For receiving the assistantship during the Ph.D. programme

1. The applicant must have qualified GATE/CEED or
2. The candidate must have qualified CSIR/UGC-JRF

However, a candidate who has qualified CSIR/UGC-NET but does not qualify for CSIR/UGC-JRF, will be admitted without assistantship (self-financing mode).

The Senate is requested to approve the proposal for modifications.

Following guidelines are proposed for the sanction of funds to carry out experimental work related to research and project by the students:

1. Ceiling on the amount
 - I. For Ph.D. students:
A student can get upto Rs. 50,000/- in his/her programme for the experimental work. Requirement for the experiment will be evaluated and recommended by the RPC of the student and forwarded by the Head.
 - II. For Masters' students
A student can get upto Rs. 10,000/- in his/her programme for the experimental work. Requirement for the experiment will be evaluated and recommended by the PGPC of the student and forwarded by the Head.
 - III. For Undergraduate Students
For the research project or PBI during VII and VIII semesters, a student can get upto Rs. 5,000/- for the experimental work. Requirement for the experiment will be evaluated and recommended by DUGC and forwarded by the Head. For other projects such as 'course project' or 'optional project' or 'Design Project' or 'Design and fabrication project', the instructor incharge/ faculty mentor will take necessary approvals which will be forwarded by the Head.
2. Two or more students in a group may combine this fund to purchase an item or set of items required for their experimental work.
3. The sanction of fund will only be for the experimental purposes and not for the purchase of computer/ laptop/ computer peripherals.
4. The components/ equipment purchased will become part of the concerned discipline and will be entered in the stock register of the associated lab.

All such applications will be approved by the Director on the recommendation of the Dean Academic. The Director will have discretion power to allocate fund for the purpose.

The Senate is requested to approve the proposal and forward to the BoG for the financial approval.

Currently the question papers for the end term examination are moderated by a committee constituted by the Head of the discipline. Due to limited number of expertise faculty, moderation is not effective.

The Senate is requested to review the policy for the question paper moderation and suggest the modification, if required.

Senate/42/17	Modification in Merit Cum Means (MCM) Scholarship rules
---------------------	--

Following modifications are proposed for the award of MCM scholarship

1. Gross annual income limit (from all sources) of parent/guardian will be Rs 2,50,000/-.
2. Annual income limit of Rs 2,50,000/- and minimum CPI of 7.0 (for Open Category) and 6.5 (for SC/ST) will be the minimum eligibility criteria for MCM Scholarship. The final selection will be based only on the performance in the last two semesters with no weightage to Annual income.
3. First year students will be given MCM scholarship during first semester based on their inter-se merit in JEE.
4. The Tuition fee waiver to additional 10% students should be subject to the same condition/norm as for the full MCM scholarship.

The Senate is requested to approve the modifications for the batch admitted in 2019.

Senate/42/18	Panel of examiners for the Ph.D. thesis evaluation
---------------------	---

Presently, the Institute send the Ph.D. thesis to at least one expert outside the India. The expert is proposed by the thesis supervisor. It is proposed that such expert should be from the top 400 universities in the Times world ranking.

The Senate is requested to approve the modifications.

Senate/42/19	Course requirement for the PBI and PR499
---------------------	---

Various students register for the PBI or PR499 in a group. Such group is heterogeneous in nature. It has been observed that sometimes, one or few members of the group does not have any background in the field of project being carried out and could not perform well. It is proposed that it is to made compulsory that such students must done a course in the project related field. The course may be part of the curriculum or it can be MOOCs or Swayam based course.

The Senate is requested to approve the modifications.

Senate/42/20	Ratification of approvals accorded by the Chairperson Senate
---------------------	---

From time to time, approvals are accorded by the Chairperson Senate, for smooth running of the academic activities. A list of approvals is attached herewith as **Annexure III**.

Senate is requested to ratify the approvals accorded by the Chairperson Senate.

Senate/42/21	Any other item with the permission of the Chair
---------------------	--

Any other item will be placed in the Senate meeting with the permission of Chair.

Pandit Dwarka Prasad Mishra
Indian Institute of Information Technology,
Design & Manufacturing Jabalpur

Minutes of the 41A Special Meeting of the Senate held on September 11, 2018 from 12:00 p.m. onwards in the Conference Hall of PDPM IITDM Jabalpur.

Members present:

Prof. Sanjeev G. Deshmukh	Chairperson
Prof. Aparajita Ojha	Member
Prof. Puneet Tandon	Member
Prof. Vijay Kumar Gupta	Member
Prof. P. N. Kondekar	Member
Dr. Pritee Khanna	Member
Dr. Prabin Kumar Padhy	Member
Dr. Prashant Kumar Jain	Member
Dr. Dinesh Kumar Vishwakarma	Member
Dr. Prabir Mukhopadhyay	Member
Dr. Subir Singh Lamba	Member
Smt. Swapnali D. Gadekar	Acting Registrar & Secretary

The following members expressed their inability to attend the meeting:

Prof. P.V. M. Rao
 Prof. Amitabha Mukherjee
 Prof. V. M. Gadre
 Prof. Tanuja Sheorey
 Dr. Debanik Roy
 Dr. S.C. Bose

Senate/41A/01

Overview Report of the Chairperson

The Chairperson Senate welcomed all the senate members. Director presented overview report of the Institute and informed to the Senate that 439 students have taken admission in August 2018 out of which 290 students are in B.Tech., 23 students are in B.Des., 81 students are in M.Tech., 24 students are in M.Des. and 21 students are in Ph.D. He also informed that 4 international students have joined through DASA and one through Study in India. In this 10th convocation, 360 students will be awarded degree (BTech: 255, Mtech: 66, MDes: 18, PhD: 21). Director expressed satisfaction on the number of PhD students passing out in 2018.

Senate/41A/02	Confirmation of Minutes of the 40th meeting of the Senate held on July 28, 2017.
----------------------	--

The Minutes of the 40th meeting held on July 28, 2017 were circulated to all the members. The comments received from members were discussed in the meeting. The minutes after incorporating the comments were confirmed by the Senate.

Senate/41A/03	Action taken report on the decision of the Senate vide 40th meeting of the Senate held on July 28, 2017.
----------------------	--

Action Taken Report on the decision of 40th meeting of the Senate was placed before the Senate. The Senate noted the same.

Senate/41A/04	Recommending the names of the students for the award of the degree in the 10th Convocation
----------------------	--

The names of graduating students who have fulfilled the requirements related to the completion of the degree were placed before the Senate. A summary of the same is given below:

Programme/ Discipline	B.Tech.	M.Tech.	M.Des.	Ph.D.
Computer Science & Engineering	87	09	-	05
Electronics and Communication Engineering	81	-	-	08
Electronics and Communication Engineering (Microwave & Communication)	-	08	-	-
Electronics and Communication Engineering (Power & Control)	-	09	-	-
Electronics & Communication Engineering (Micro-Nano Electronics)	-	07	-	-
Mechanical Engineering	87	-	-	07
Mechanical Engineering (CAD-CAM)	-	08	-	-
Mechanical Engineering (Design)	-	09	-	-
Mechanical Engineering (Manufacturing)	-	08	-	-
Design	-	-	18	01
Mechatronics	-	08	-	-
Total	255	66	18	21

The Senate recommended the names for the award of the degree to the Board of Governors. The Senate authorized the Chairperson Senate to approve the names of additional graduating students, if any. The list of students for award of degrees in the convocation is placed as Annexure - I

Senate/41A/05

Recommending the names of the students for the award of various Prizes and Medals in the 10th Convocation

The Senate discussed about the prizes and medals to be awarded to the graduating students. Senate advised to include the award for best Ph.D. thesis as instituted by the board. The convener SPAC was advised to frame and circulate the guidelines to members for approval. SPAC Convener was advised to evaluate and recommend prizes and medals for the 10th Convocation. SPAC Convener informed that applications for Medals and Prizes have already been received and selection committees have been constituted. However, to accommodate students who may pass out after closing date, last date of application is fixed as 30th September 2018.

Senate/41A/06

Masters' Programme in Signal Processing

The Senate deferred agenda for the next Senate meeting. The Senate also advised to Head ECE to take feedback from the eminent faculty in the area on the curriculum from outside Institute.

Senate/41A/07

Ratification of approvals from Chairperson Senate

The approvals given by the Chairperson, Senate were placed before the Senate. Some senate members pointed out about the approval for relaxation of minimum course credit required for PhD in NS. It was informed that the approval is already implemented for some students. The Senate ratified the approval and advised to discuss it further. With the above advice, Senate ratified all the approvals accorded by Chairperson Senate. The list is given below.

Ratifications of the approval of the Chairperson, Senate

Approval UG & PG Result

S. No	Particulars	Date of Approval	Remarks
	Semester – I, 2017-18		
1.	Approval of Special Semester (Optional Project) of 2016 B.Tech	22-08-2017	
2.	Approval of B.Tech & B.Des 2017	20-12-2017	
3.	Approval of B.Tech & B.Des 2016	20-12-2017	
4.	Approval of B.Tech & B.Des 2015	20-12-2017	
5.	Approval of B.Tech 2014	20-12-2017	
6.	Approval of B.Tech 2013 & 2012	20-12-2017	
7.	Approval of All M.Tech & M.Des	20-12-2017	

8.	Approval of Dual Degree	20-12-2017	
9.	Approval of All Ph.D.	20-12-2017	
10.	Approval of APEC for UG	20-12-2017	
11.	Approval of APEC for PG	20-12-2017	
	Semester II, 2017-18		
12.	Approval of B.Tech & B.Des 2016	30-05-2018	
13.	Approval of B.Tech & B.Des 2015	08-06-2018	
14.	Approval of B.Tech & B.Des 2017	04-06-2018	
15.	Approval of B.Tech 2014	04-06-2018	
16.	Approval of B.Tech 2013	08-06-2018	
17.	Approval of Ph.D. Batch 2011 to 2017	04-06-2018	
18.	Approval of M.Tech & M.Des 2016	04-06-2018	
19.	Approval of M.Tech & M.Des 2017	04-06-2018	
20.	Approval of Dual Degree	13-06-2018	
21.	Approval of APEC for UG	26-06-2018	
22.	Approval of APEC for PG	04-07-2018	
23.	Approval of Summer Result UG (B.Tech/B.Des)	07-08-2018	
24.	Approval of Special Semester (Optional Project) of 2016 & 2017 B.Tech	05-08-2018	

New Course Approval

S. No	Particulars	Date of Approval	Remarks
1.	Approval of PG Course with evaluation scheme	09-11-2017	
2.	Approval of Course ES307a Number Theory and Cryptography	04-01-2018	
3.	Approval of Course EM667d Fundamentals of Deep Learning	04-01-2018	
4.	Approval of Course ES306b Sensing Methods and Devices	04-01-2018	
5.	Approval of Course CS303L Professional Lab III	04-01-2018	
6.	Approval of Course EM604e Approaches for Distributed Systems	24-01-2018	
7.	Approval of Course EM602f Advanced in Kernel Methods	24-01-2018	
8.	Approval of Course EM641 VLSI Design	24-01-2018	
9.	Approval of Course ME205 Engineering Materials	31-01-2018	

Approval of Ph.D. Thesis

S. No	Particulars	Date of Approval	Remarks
1.	Juned Ahmed Siddiqui	28-08-2017	
2.	Akhilesh Kumar Choudhary	28-08-2017	
3.	Rajiv Dey	25-09-2017	
4.	Ravindra Singh	09-11-2017	

5.	Prabhat Kumar	10-01-2018	
6.	Abhay Malharrao Khalatkar	12-01-2018

Ref. No. IITDM/AR (Acad)/2019/06/482

Date: June 12, 2019

Note-1

Sub: Approval of Results/Grades for B.Tech & B.Des 2016 Batch.

The Results/Grades of students in B.Tech & B.Des Batch 2016 in CSE, ECE, ME & Design disciplines have been prepared alongwith APEC Report.

The courses wise breakup are as follows:

Sl. No.	Course Code	Course Name	No. of students
1.	CS204	DESIGN AND ANALYSIS OF ALGORITHM	01
2.	CS312	SOFTWARE ENGINEERING	97
3.	CS313a	IMAGE PROCESSING	37
4.	CS313b	NETWORK SECURITY & CRYPTOGRAPHY	59
5.	CS314a	MOBILE AND WIRELESS NETWORKS	14
6.	CS314b	MECHINE LEARNING	83
7.	CS315L	LAB BASED PROJECT	97
8.	HS303a	SOFT SKILLS AND USE OF ENGLISH LANGUAGE	129
9.	HS303c	INDIAN PHILOSOPHY AND LITERATURE IN ENGLISH	114
10.	HS304	ENVIRONMENTAL SCIENCE	243
11.	EC312	LINEAR INTEGRATED CIRCUIT DESIGN	70
12.	EC313a	DIGITAL COMMUNICATION	19
13.	EC313b	DIGITAL SIGNAL PROCESSING	51
14.	EC314a	ANTENNA THEORY & DESIGN	8
15.	EC314c	BIOMEDICAL INSTRUMENTATION	65
16.	EC315L	DSP+MICROWAVE	70
17.	MS201	MANAGEMENT CONCEPTS AND TECHNOLOGY	01
18.	NS104	ELECTRODYNAMICS AND OPTICS	01
19.	SW21c	PROCESS CONTROL-DESIGN, ANALYSIS AND ASSESSMENT	10
20.	HS102	CULTURE & HUMAN VALUES	01
21.	ME204	SOLID MECHANICS	01
22.	ME312	HEAT AND MASS TRANSFER	75
23.	ME313a	FINITE ELEMENT METHODS	57
24.	ME313b	CNC MACHINE TOOLS AND PROGRAMMING	17
25.	ME313c	COMPUTER AIDED DESIGN	18
26.	ME314a	VIBRATION OF MECHANICAL SYSTEMS	59
27.	ME315L	ADV. MANUFACTURING+NCCNC	76

Proposal for a Modification of a course

- I. Course code: ...
- II. Proposed course Name: ...
- III. ...
- IV. Marking scheme: ...
- V. ...
- VI. Semester: II
- VII. Programme: B.Tech
- VIII. Learning Objective: To learn practical aspects related to fluid mechanics and statics.
- IX. Detailed course content:
 - 1. KINEMATICS: Planar motion, kinematic concepts of links, basic terminology and definitions, inversion of kinematic chains, absolute and relative motion, kinematics and structure diagrams, equivalent linkages, vector diagram, displacement, velocity and acceleration polygons, analysis, instantaneous centres, special graphical methods for slider crank mechanism. 5H
 - 2. KINEMATIC SYNTHESIS OF MECHANISMS: Introduction, Mobility of planar linkage, function generation, path generation, motion generation, Lucas-Inversor, synthesis of mechanisms for generating of prescribed paths. 6H
 - 3. GEARS: Fundamental law of gearing, introduction of and basic terminology, involute tooth profile analysis kinematic considerations, type of gears, standards in tooth forms, gear ratios, simple, compound, reverted and epicyclic gear trains. 6H
 - 4. CAMS: Classification of Followers and Cams, Terms used in Ratchet Drive, Cam Mechanism and its Use, Displacement, Velocity and Acceleration Diagrams, When they move? Vives, With constant Velocity, Simple Harmonic Motion, Uniform Acceleration and Retardation and Cycloidal Motion, Construction of Cam Profile for a Ratchet Cam, Oscillating Link, Log, Rotational and Face follower. 4H
 - 5. GOVERNORS: Fundamental Difference between Governor and Flywheel, Various Types and Types of Governor with Porter, Proell and Hartnell, inertia Governor, Sensitiveness and Stability of Governor, Isochronous Governor, Hunting, Effort and Power in Porter Governor, Controlling Force Diagrams for Porter and Spring Controlled Governor, Coefficient of Insensitiveness. 4H
 - 6. BRAKING MOVEMENT AND FLYWHEEL: Braking Moment diagram for a Four Stroke Cycle Engine in I.V. and comparing engine, The main and flywheel, and introduction of Energy and coefficient of fluctuation of Energy, coefficient of fluctuation of speed, design of flywheel, Dependence of mass of flywheel on flywheel speed, Power. 4H
 - 7. BALANCING OF ROTATING MASSES: Necessity of Balancing, Static and Dynamic, Analytical and Graphical Methods, Parallel Shafts, Parallel Shafts, Logarithmic Profile, Balancing of Reciprocating Masses, Construction of Balancing Machine, Choice of Line, curves, Balancing of 3, 4, 5, 6, ... 5H
 - 8. STATIC ANALYSIS AND DYNAMIC ANALYSIS: ... 5H

1.2.1.1 Objectives:

1. Introduction to Vibration: Work on design example: Study of
2. Dynamic Analysis using Matrix
3. Matrix approach to Vibration
4. Study of Vibration in Rotating Machinery
5. Design of a shaft for a rotating machinery part subjected to torsion
6. Determination of the MVA of a shaft for a rotating machinery part subjected to torsion
7. Study of gyroscopic effect and determination of gyroscopic couple
8. Determination of gear ratio of Epicyclic Gear Train
9. To determine damping coefficient of given oil film torsional vibration of disc on a system
10. Determination of Poisson's Ratio as a function of Poisson's ratio of reducing stress

Proposal for a Modification in a course

- I. Name of the course: *IC 301*
- II. Proposed modification: *IC 301*
- III. Name of the proposer: *Dr. Manoj Kumar Singh*
- IV. Model year: *2019-2020*
- V. Examination scheme: *Final Work (40%) + Mid Term (20%) + End Sem (40%)*
- VI. Semester: *IV*
- VII. Programme: *B.Tech*
- VIII. Learning Objectives: *to learn practical aspects related to stress, strain and material failure.*
- IX. Outline Course Content:

List of Experiments

1. To perform the Tensile Test of the given bar
2. To perform compression, shear and bending test on steel bar and determine compressive strength, shear strength and bending strength of the bar
3. To determine the Brinell Hardness, Rockwell Hardness number for the given specimen
4. To determine the energy absorbed by the given specimen by Izod Impact Test, the Charpy Impact Test.
5. To determine the bending stress & deflection in a cantilever beam using strain gauge & LVDT gauges.
6. Compare the measured natural frequency to experimentally determined for Whirling of shaft
7. Study of Spark Ignition & Compressed Ignition Engines
8. To find out the corrected performance parameters (compression ratio, volumetric efficiency) on petrol engine and to do the run balance sheet
9. To study dynamometer & conduct load test on diesel engine to determine the Willbros log by graphical and regression method. Also to find out brake power, Brake and indicated thermal efficiency, mechanical efficiency, etc. also SFC, BMEP, Brake and indicated torque output, mean piston speed, clearance volume and so. Plot load vs above parameters.
10. To study fuel injection system w.r.t. SI and CI engines (injectors, MPI and DI system)
11. To perform torsion test on a wire
12. To determine COP for a given refrigeration system

Proposal for a Modification in a course

- (i) Course No. : DME4001
- (ii) Department : Design & Manufacturing
- (iii) Proposed by : Dr. P. K. Mishra, IIT J.P. Jabalpur
- (iv) Module / Unit / Topic / Unit / Topic
- (v) Evaluation Scheme : 40% Written Exam, 60% Mid Term / Project / Report / Seminar
- (vi) Semester : IV
- (vii) Programme : B.Tech.
- (viii) Learning Objectives for the proposed course should be following, wherever applicable.
- (ix) Detailed Course Content

1. To calculate the Coefficient of Discharge C_d , Coefficient of Velocity C_v and Coefficient of Contracted Area C_c for various heads over orifice fitted on the side of a tank. And to draw a relationship between these coefficients and the size of the orifice.
2. To compute Piezo-metric head and draw Hydraulic Gradient Line for the given flow passage.
3. To determine friction factor for the given pipes and the plot friction factor vs Reynolds number for all the pipes and compare it with the Moody's chart.
4. To calculate the coefficient of discharge for the given Venturimeter and orifice meter.
5. To determine head loss coefficient for the given bend in pipes and to determine Bernoulli's Theorem.
6. To study journal bearing test rig system. Perform the pressure profile of lubricating oil at various conditions of load and speed and the relational torque & power transmitted. 3 Hrs. each
7. To obtain performance characteristics of a centrifugal pump.
8. To obtain performance characteristics of a Francis turbine and determine its critical speed.
9. To carry out calculations and steam turbine experiment to compare theoretical efficiency with concepts including second law analysis, steam to determine pressure and fix states, performing energy balances, etc. efficiency.
10. To study the working of impulse and reaction steam turbines through pressure and velocity diagrams.
11. To find the condenser efficiency.

Proposal for a new course

- I. Course Title: Basics of Soft Computing
- II. Proposed Course Number: ~~EM 602~~ EM 602 h *Public*
- III. Units: Lecture 20 Tutorial 00 Lab 00 Credit 02
- IV. Mode: core/Elective/I:MF; I:MF
- V. Evaluation Scheme: Mid-Term (30%), End Term (50%), Project 20% (Tentative)
- VI. Semester: I/II
- VII. Programme: PG open to UG
- VIII. Learning Objective: To familiarize students with soft computing fundamentals and approaches to solving real-world problems.

IX. Detailed Course Content:

Module 1: Basics of Soft Computing, Introduction to neural networks and its architecture.	4 II
Module 2: Fuzzy sets and Fuzzy relations, Membership function, Fuzzification, Fuzzy Inference, Defuzzification Methods, Applications of Fuzzy Logic.	4 II
Module 3: Introduction to nature inspired algorithms, Genetic algorithms, Particle swarm optimization, Artificial Bee Colony, Moth-Flame Optimization.	7 II
Module 4: Multi-objective optimization problem solving (MOOPs), concept of domination, Non-Pareto approach to solve MOOPs, Pareto-Based approach to solve MOOPs.	5 II

Proposal for a new course/Modification in a course

- I. Course Title: Introduction to Image Processing
- II. Proposed Course Number: EM610a
- III. Units: Lecture 20 Tutorial Lab Credit 02
- IV. Mode: core/Elective/EMF: EMF
- V. Evaluation Scheme: Mid-Term (30%), End Term (50%), Project 20% (Tentative)
- VI. Semester: I/II
- VII. Programme: BTech/MTech/PhD
- VIII. Learning Objective: Understanding basics concepts of image processing required for various image processing applications and next level courses in this area.
- IX. Detailed Course Content:

Module 1: Digital Image Fundamentals, Image Enhancement in Spatial Domain	8 H
Module 2: Image Enhancement in Frequency Domain	8 H
Module 3: Basics of Image Segmentation	4 H

Text/Reference books:

Through: Head (ECE) and Dean (Academic)

Subject: Offering two NPTEL courses to PG students.

Dear Sir.

A new PhD candidate has joined in ECE (Power & control) in this semester, who has completed his previous degree (M. Tech.) from our institute only. Therefore, he has already done many offered courses during his M. Tech. program and he was having a problem in opting the courses for his minimum course credits requirements.

He requested for a waiver of the course requirement, which was not forwarded by the head (ECE). therefore. I have offered two NPTEL courses, relevant to his field, which are as follows:

1. Introduction to Smart Grid: NP Padhy, IIT Roorkee
2. Power System Dynamics. Prof. Kulkarni, IIT Bombay

Course contents in the prescribed format are enclosed herewith with complete details about the courses. I request you to please accord your approval to the NPTEL courses and give the permission to offer these NPTEL courses to the PG students.

With Regards,

Sachin

VIII. Learning Objective: This course mainly focuses on background and fundamental building blocks of smart grid with stringent emphasis on practical applications in the existing power system network. This course provides overview of smart grid and its potential in different types of power sectors such as power generation, transmission and distribution in Metro, Urban/Semi urban and remote locations of India. This also emphasizes on renewable energy source integration in present grids as well as in micro and Nano grids as part of the course and explores its issues in operation, analysis, management, control, protection and monitoring. In addition to it, this further provides detailed utility level analysis in terms of energy management, network analysis and operation of renewable based smart grids.

IX. Detailed Course Content:

<ul style="list-style-type: none">Module1: Introduction to Smart Grid-I. Introduction to Smart Grid-II, Architecture of Smart Grid System, Standards for Smart Grid System, Elements and Technologies of Smart Grid System	
<ul style="list-style-type: none">Module2: Elements and Technologies of Smart Grid System-II, Distributed Generation Resources-I. Distributed Generation Resources-II. Distributed Generation Resources-III

Proposal for a Modification in a course (for current semester only)

- I. Course Title: Fundamentals of Robotics
- II. Proposed Course Number: ES205
- III. Units: Lecture 03 Tutorial 00 Lab 00 Credit 04
- IV. Mode: core/elective/EMF: Core
- V. Evaluation Scheme: Quiz : 15%. Mid Term: 20%. End Term: 40%. Project: 25%
- VI. Semester: IV
- VII. Programme: B.Tech.
- VIII. Learning Objective:
- IX. Detailed Course Content:

Module1: Introduction

- 1. Introduction and Classification of robots
- 2. Introduction to Mechanical, Electrical and Electronics Elements of robots such as joints, links 04 II

Module 2: Robot Kinematics

- 3. Robot as Mechanism
- 4. Joints and degrees of freedom
- 5. Position and orientation of a rigid body
- 6. Homogeneous transformations, Euler Angle 15 II
- 7. Direct kinematics of serial robots, Introduction to D-H parameters and its physical significance
- 8. Inverse kinematics of serial robots
- 9. Kinematics of mobile robot, Non-holonomic and holonomic robots

Module 3: Sensors and Actuators

- 10. Sensors for robots: Introduction and their characteristics:
 - a. Position, Velocity and Acceleration sensors
 - b. Force, pressure and Torque sensors 8 II
 - c. Light, infrared, proximity and range finder sensors
- 11. Actuators for robots: Introduction to servo and stepper motors, pneumatic and hydraulic actuators

Module 4: Robot Motion

- 12. Local, global path and reactive navigation
- 13. Overview of roadmap and potential field methods 10 II
- 14. Bug1, Bug2 and tangent bug algorithms
- 15. Autonomous intelligent robots
- 16. Trajectory-following

Module 5: Robot Control

- 17. Feedback and motion control 5 II

- I. Course Title: Introduction to Biometrics
- II. Proposed Course Number: EM610d
- III. Units: Lecture 10 Tutorial 0 Lab 0 Credit 01
- IV. Mode: core/Elective/EMF: EMF
- V. Evaluation Scheme: Quiz and Programming Assignments 50%, Exam 50% (Tentative)
- VI. Semester: I/II
- VII. Programme: UG/PG
- VIII. Learning Objective: This course aims to provide a background in the field of biometrics. The students will be encouraged to implement a basic biometric scheme.
- IX. Detailed Course Content:

Module1: Biometrics - Definition, Characteristics, Physiological and Behavioral Biometrics, Applications, Verification and Identification scenarios, Biometric Authentication System, Design Issues. Overview of Biometric Techniques, Discussion on Some Recent Trends: Performance Evaluation, Type I and II Error, FAR, FRR, ROC Curves, Biometric System Selection.	10 H

Proposal for a new course (EMF)

- I. Course Title: Quantum Computation and Quantum Cryptography
- II. Proposed Course Number: EM (to be allotted) 6095
- III. Units: Lecture: 10 Tutorial:0 Lab:0 Credit: 1
- IV. Mode: core/Elective/EMF: Core EMF
- V. Evaluation Scheme: 1 Quiz (20%) + 1 Final Exam (Tentative)
- VI. Semester: I and II
- VII. Programme: PG (M. Tech./Ph.D.) and open to UG.
- VIII. Learning Objective: The courses aims at giving an exposure to student on the principles of quantum computation and quantum cryptography. Starting with basics of quantum information processing, powerful quantum algorithms, such as Shor's integer factoring, Grover's fast search, and other quantum algorithms including optimization will be covered in the course. In addition, the course will cover the principles and practice of emerging field of quantum cryptography.

IX. Detailed Course Content:

Module1: Introduction to quantum computation and quantum cryptography Basics of quantum computation and the impacts quantum computing and quantum cryptography. Fundamentals of quantum information processing and its mathematical treatment using linear algebra.	2 H
Module2: Quantum algorithms Quantum computation from computer science standpoint, Quantum algorithms: Shor's integer factoring, Grover's fast search, and other related quantum algorithms.	4 H
Module3: Quantum computing architecture Measurement-based quantum computing and its relation with some graph-theoretical concepts. Quantum combinatorial optimization (quantum annealing).	2 H
Module4: Quantum cryptography Basic principles and Implementation issues of quantum cryptography.	2 H

Proposal for a new course/Modification in a course

- I. **Course Title:** Deep Learning and Applications
- II. **Proposed Course Number:** CS617 (already allotted)
- III. **Units:** Lecture: 2 Tutorial: 0 Lab: 2 Credit: 4
- IV. **Mode:** core/Elective/EMF: Elective
- V. **Evaluation Scheme:** 10% test/quiz, 20% lab and project assessment, 30% Mid Sem, 40% End Sem
- VI. **Semester:** Sem II
- VII. **Programme:** BTech Semester VI and VIII/ MTech/PhD in CSE.
- VIII. **Learning Objective:** To learn emerging AI technologies through Deep Learning. After successfully completing this course, the student will be able to apply Deep Learning methodologies in applications on computer vision, and natural language processing. The student will be exposed to latest trends and techniques in Deep Learning.
- IX. **Detailed Course Content:**

Module1: Brief introduction to machine learning, supervised, unsupervised and reinforcement learning. Neural networks, Logistic regression, Forward and Backward propagation, Vanishing and exploding gradient problems. Improving neural network performance: Hyperparameters tuning, Regularization and optimization. Introduction to deep learning, Challenges in training deep neural networks, Dropout regularization. Optimization: Mini batch gradient descent, RMSProp, Adam optimization. Introduction to Python, Tensorflow and Keras. Implementing first neural network in Keras.	8H
Module2: Convolutional neural network (CNN): Convolution and pooling layers, Activation maps and dimension of output volume, important CNN architectures, AlexNet, GoogLeNet, VGG, ResNet and other emerging networks. Application of CNN in classification problems. Building a CNN based classification model in Keras. Concept of transfer learning. Applications of CNN classifier to agriculture, surveillance and medical fields.	10H
Module3: Sequence modeling: introduction to Recurrent Neural Network (RNN), Introduction to types of RNNs. Vanishing gradient problem and LSTM and GRU solutions. Applications to Language modeling - chatbots, sentiment classification and machine translation. Attention model and beam search methods.	9H
Module4: Applications of Deep CNN in object detection problems. Specific CNN architectures for object detection. Two stage and single stage methods. Sliding Window, R-CNN, Fast R-CNN and Faster R-CNN. Real-time implementation CNN models. YOLO and SSD architectures. Darknet Framework and use of transfer learning for object detection.	7H
Module5: Autoencoder (AE), types of AEs, Undercomplete and overcomplete AEs and their uses. Stacked AE, Sparse AE, Denoising AEs. Generative Adversarial Networks and their applications. Challenges in training GANs, Mode collapse, Nonconvergence and vanishing gradients, Some basic solutions, Min-Batch GAN, Supervision with label, InfoGAN, Conditional GAN. Applications of GAN in generating realistic images, text-to-image translation, image-to-image translation, and data augmentation.	6H

Proposal for a New Course

- I. **Course Title:** Introduction to Blockchain *Technology* *Part 1*
II. **Proposed Course Number:** CS685
III. **Units:** Lecture : 2 Tutorial: 0 Lab: 2 Credit: 4
IV. **Mode:** core/Elective/EMF: Elective
V. **Evaluation Scheme:** 5% test/quiz, 10% lab assessment, 15% project, 30% Mid Sem, 40% End Sem
VI. **Semester:** Sem I
VII. **Programme:** BTech ~~Semester-III~~ /MTech/PhD in CSE.
VIII. **Learning Objective:** To learn fundamentals of blockchain and platforms that implement blockchain technologies. After successfully completing this course, the student will be able to understand basics of blockchain and secure peer to peer transaction methods for applications in financial software systems, supply-chain, healthcare and governance.

IX. Detailed Course Content:

Module1: Introduction to Blockchain: History: Bitcoin & Blockchain, Ethereum Blockchain: Smart Contracts, Ethereum Structure and Basic Operations, Incentive Model. Design Primitives: Protocols, Security, Consensus, Permissions, Privacy. Algorithms & Techniques: Public-Key Cryptography, Hashing, Hashchain to Blockchain, Transaction Integrity, Securing Blockchain, Basic consensus mechanisms.	8 H
Module2: Consensus Requirements for the consensus protocols, Decentralized Applications and Governance, Scalability aspects of Blockchain consensus protocols, Permissioned Blockchains, Forks for Permissioned Blockchains.	10H
Module3: Smart Contracts: Defining, processing and deploying smart contracts, Time elements, Validation and test, Shared Rules & Trust, Decentralised Applications (DApps). Solidity, Structure, Basic Data Types & Statements.	8H
Module4: Blockchain Platforms: Hyperledger Fabric, Key Frameworks and Tools, Fabric Services. Fabric Model & Functions, Transfer assets in a blockchain network, Composer, Decomposing the consensus process, Hyperledger fabric components, Chaincode Design and Implementation.	10H
Module5: Use cases, Challenges and Solutions: Major Blockchains - Blockchain in Financial Software and Systems, Blockchain in trade supplychain, Blockchain for Government Applications. Introduction to Blockchain Challenges: Consensus, Scalability, Privacy & Confidentiality, Tradeoffs and Choices. Blockchain Cryptography: Privacy and Security on Blockchain, Escrow & Multi-sig.	4H
Text/Reference books: 1. Tapscott, Don, and Alex Tapscott. Blockchain Revolution: How the Technology Behind Bitcoin is Changing Money, Business, and the World. Penguin, 2016. 2. Swan, Melanie. The Dean Academics,

PDPM IITDM Jabalpur

Through: Supervisor (Prof P.N Kondekar)

Sub: Conversion of PhD Program from regular program to external PhD.

Sir.

I wish to inform you that, I am a regular PhD Student under the Visvesvaraya PhD scheme. I have completed 3 years in this college. I have fulfilled the minimum academic requirements (course work, comprehensive exam and 3 progress seminars). I am shortlisted as suitable candidate for an Assistant Professor in Jabalpur Engineering College under National Project Implementation Unit (NPIU) in TEQIP III program. I need to join the college on or before 29/09/18 and from my carrier point of view I am willing to grab this opportunity.

In this context, I shall not be eligible to continue my PhD as a regular student and I kindly request you to convert my full time PhD program to external PhD program. I shall be highly thankful to you for this obligation.

Enclosure: Selected Candidate list in TEQIP III

Yours Truly

Abhijeet Pathak

The Dean (Academics),

IITDM, Jabalpur

Through: Proper Channel

Subject: Correction of the Grades for PR101

Dear Sir,

With reference to the above subject, hereby I request you to correct the students grade for the following:

S. No.	Roll Number	Name	Previous Grade	Modified Grade
1.	2017342	Sajal Jain	-	B+
2.	2017016	Abhishek Vishwakarma	-	B
3.	2017241	Shivam Asati	C+	B

Reason for change:

1. 2017342, Sajal Jain was added in the group in place of Nitika Kushwaha (2017162), but his roll no. was not updated in the list. So, grade was assigned to Nitika in place of Sajal Jain.
2. 2017016, Abhishek Vishwakarma: His name was not updated in the list. Hence, no grade was assigned to him.
3. 2017241, Shivam Asati: During first evaluation of PR101, he was 'absent due to health reason. But, the information was not passed to the concern instructor. Hence, based on the revised marks, his grade may be updated to 'B' in place of 'C+'.

Submitted for kind consideration.

Thanking You.

Your Faithfully,

Dr. Harpreet Singh

Respected Sir,

In view of the unavailability of the lab space for the core course ES205 Fundamentals of Robotics, it will become difficult to run the lab classes for the course. It is therefore proposed that the course be converted to 3 Lectures in place of the existing pattern of 2 Lectures + 2 Practical for the current batch as a special case. We will cover the practical aspects through the course projects.

Submitted for your kind approval.

Your Sincerely

Respected Sir,

Please find attached note sheet processed by AR (Academic), regarding change the name in degree and other certificate.

As per note sheet, Mr. Pushpendra Singh Kushwaha, roll no. 2013157, B.Tech (ME) had completed his UG Programme in the year 2017 and his degree was awarded in 9th convocation held on August 16, 2017.

As per requested by Mr. Pushpendra Singh Kushwaha to change his name in degree and other certificate. He wants to mention name as Pushpendra in place of Pushpendra Singh Kushwaha.

As per attached original documents submitted by student, Mr. Pushpendra Singh Kushwaha for cancellation.

Same is recommended by Dean Academic for approval to change the name.

Put up for perusal and orders please.

February 11, 2019

Mr. Pushpendra Singh Kushiwaha (Roll No. 2013354) B.Tech. (MI) had completed his UG programme in the year 2017 and his degree was awarded in 9th convocation held on 11/12/2017. He has requested for migration certificate and other certificates (request is attached) in which he wants to mention his name as Pushpenada in place of Pushpendra Singh Kushiwaha. He had filled Institute form in the year 2013 at the time of admission and mentioned his full name and he was also enrolled by the name of Mr. Pushpendra Singh Kushiwaha. He was continuously getting his gradesheets from Semester I to Semester VIII (Semester I, 2013-14 to Semester II, 2016-17) with his full name and also not conveyed any request to change his name.

Institute has also provided facility of google form which was entered by the student. Mr. Pushpendra Singh Kushiwaha wrote his full name in Hindi and English. Degree was also printed based on his consent and similar to his gradesheets issued to him since last 4 years. Copy of Institute form, gradesheets of the UG programme, and degree with his request are enclosed for your perusal.

He has submitted originals as given below.

1. Original Degree
2. Migration Certificate
3. Original Grade Sheets
4. Character Certificate
5. Percentage conversion certificate

Submitted for cancellation of above original documents and required approval to issue him modified degree, gradesheets, character certificate and other certificates.

Subject: Request to revise student grade from 'F' to 'CD'

1. Mr. Susanth Masana (2014253) enrolled in course MN201: Manufacturing Processes (I sem 2017-18) for grade improvement. His attendance was less than 75% and he requested me a course drop. I agreed and forwarded his course drop application, but unfortunately I failed to inform the Dean (Academic) in due time. Therefore, his course was not dropped officially and I was not aware of this fact.

2. As Mr. Masana did not appear in his quiz and exams, his MN201 score was zero and therefore he was awarded an 'F' grade by me. At that time I was under the false assumption that Academic Office has already dropped his course. Unfortunately, it did not happen.

3. A student should not suffer because of our miscommunication. I request you to kindly revise his grade from 'F' to 'CD'. Thank you.

Subject: Regarding discrepancy in the result of two students of B.Tech. Semester VIII

Dear Dr Padhy,

Please refer the mail received from two students (1) Anuj Shrivastava – Roll No. 2015040 (2) Sparshi Jain – Roll No. 2015253.

(1) Case of Anuj Shrivastava – Roll No. 2015040

As per his mail, he has completed all 18 credits in the final semester but has got the result for 19 credits. Further, in a 1-credit EMF course on 'Cyber Security' he has been awarded 'F' grade. He had completed all formalities for dropping the course within the specified time.

(2) Case of Sparshi Jain – Roll No. 2015253.

As per her mail, she had dropped the course 'Network Security and Cryptography', but she has been awarded grade 'F' in the course.

It is requested to please do the needful and declare the corrected results for both the students.

With thanks and regards,

To,
Dean (Academic)
IIITDM JABALPUR.

Dated:- 6th Aug, '19.

Subject:- Regarding replacement and addition of two courses respectively.

Respected Sir,

I am a student of ECE batch-2016, actually two of my courses were dropped in Sem-III and V, which are EC201 and EC309 respectively.

Sir, I want to study these courses, in my current running semester VII, in addition to the current running courses of the semester, if I will not study the following courses, my degree will be extended.

These are courses running for juniors in this semester, and there are no dashes of these courses with my current running semester time table.

Your co-operation is highly obliged below, attached is the approval of Director Sir, where he asked for the consent of Dean Academic.

Thanking You,
Yours sincerely,

Jakshit Sengar

Subject : Change of course from,
Product Design in Electronics
(EM 592K) to
Photography (EM 593i)

Respected Sir,

We, Prasad Gadve (1814009) & Yogesh Kumar (1814025) opted for the course Product Design in Electronics (EM 592K) as an elective before Semester start, but due to less no. of students (i.e 2) enrolled for course, than required no. of students (i.e:5), the course stands cancelled.

Therefore, we have to change the above stated course to Photography course (EM 593i),

Please do consider our request for the

above stated change.

Sub: Regarding drop of course

Some students of BTech 2016 & BTech 2017 have made application that they had opted for PR (Project) course having 2 credit & SWAYAM courses having 2 credits each in previous years. They have now requested that their one 04 credit elective be dropped in lieu of (PR project & SWAYAM) of 2 credits each. In this connection it is submitted that an elective of 04 credits can be dropped in lieu of 2 PR (Project) but no such guideline in there for SWAYAM courses. (F/*)
