Schedule of Quantity - A

9.97. Providing and fixing aluminium tower bolts ISI marked anodised transparent or dyed to required colour or shade with necessary screws etc. complete: 9.97.3 9.97.3 200x10mm Each 4 90 360.00 9.101 Providing and fixing aluminium hanging floor door stopper ISI marked anodised (anodic coating not less than grade AC 10 as per IS: 1868) transparent or dyed to required colour and shade with necessary screws etc. complete. 9.101.2 Twin rubber stopper. Each 4 62.05 248.20 21.1 Providing and fixing anodised aluminium work for doors, windows, ventilators and partitions with extruded built up standard tubular and other sections of approved make conforming to IS: 733 and IS: 1285, anodised transparent or dyed to required shade according to IS: 1868. (Minimum anodic coating of grade AC 15), fixed with rawl plugs and screws or with fixing clips, or with expansion hold fastners including necessary filling up of gaps at junctions, at top, bottom and sides with required PVC/ neoprene felt etc. Aluminium sections shall be smooth, rust free, straight, mitered and jointed mechanically wherever required including cleat angle. Aluminium snap beading for glazing/ panelling, C.P. brass/ stainless steel screws, all complete as per architectural drawings and the directions of the Engineer-in- Charge. (Glazing and panelling to be paid for separately).		Design lab (FF) of LHTC building.

	21.1.1	For fixed portion.	kg	10	423.95	4239.50

Name of work: P/F Non A.C sheets partition work for making faculty chamber in Design lab (FF) of LHTC building.

DSR No.	Description of items	Unit	Quantity	Rate	Amount
21.1.2	For shutters of doors, windows & ventilators including providing and fixing hinges/ pivots and making provision for fixing of fittings wherever required including the cost of PVC/ neoprene gasket required (Fittings shall be paid for separately).	kg	120	513.4	61608.00
21.3	Providing and fixing glazing in aluminium door, windows, ventilator shutters and partitions etc. with PVC/ neoprene gasket etc. complete as per the architectural drawings and the directions of the Engineer-in-Charge. (Cost of aluminium snap beading shall be paid in basic item).				
21.3.2	With float glass panes of 5.0mm thickness .	sqm	5	1296.4	6482.00
NS-1	Providing and fixing of metal stud making out from GI Frame structure of size 50mm x 30mm for top & floor channel & 50mm x 28mm as a vertically stud channel place on 600mm centre to centre outer periphery fixed on MS Tubular pipe of size 50 x 25mm for giving extra strength & glazing of the partition . 10mm thick non asbestos cement particle board fixed on both sides of GI frame structure with dry wheel metal screws. All joints to be filled by jointing compound. & Fiber tape. Two coats of Birla Putty & Acrylic Emulsion of desired shade on both faces of partition.		170	1850	314500.00
NS-4	P/F 12mm thick prelaminated particle board flat pressed three layer or graded wood particle board conforming to IS: 12823 (interior) in panelling fixed in aluminium doors ,windows shutter and partition frames with C.P. brass /stainless steel screws etc. complete as per architectural drawing and directions of Engineer -in-charge.				
а	Prelaminated particle board with decorative lamination on one side and balancing on other side.	sqm	5	700	3500.00

DSR No.	Description of items	Unit	Quantity	Rate	Amount
NS-5	Providing and fixing aluminium handles				
	anodised transparent or dyed to				
	required colour and shade with				
	necessary screws etc. complete.				
а	200mmx10mm	Each	8	150	1200.00
NS-6	P/F door closer of approved make				
	complete with all necessary screws.	Each	4	1700	6800.00
NS-7	P/F door lock of approved make				
	complete with all necessary screws.	Each	4	700	2800.00
NS-8	P/F maruti lock in sliding windows				
	complete as per direction of E-In-C.	Each	10	60	600.00
