ABOUT DEPARTMENT:

The Department is accredited by National Board of Accreditation. The primary objective of department is to impart quality education, training and research at the Undergraduate, Post-graduate and Doctoral levels in various areas of Computer Technology with emphasis on emerging areas of Natural Language Processing ,Data Mining, Computer Vision, Machine Learning Computer Networking.

ABOUT ELECTRONICS & ICT ACADEMY (E&ICT)

Department of Electronics and Information Technology, Government of India has instituted four Electronics and ICT Academies with one academy at PDPM IIITDM Jabalpur with the primary objective preparing manpower for two important missions - 'Digital India' and 'Make in India'. The Academy aims at the design and implementation of scalable training programs in niche areas of electronics and ICT for the development of required knowledge base, skills and tools to unleash the talent of Indian population. The Academy at PDPM IIITDMJ will partner with IIITM Gwalior, MANIT Bhopal, and IIT Indore run high quality specialized courses for faculty, students and unemployed graduates. In addition, the Academy conducts customized training programs and research promotion workshops for corporate sector and educational institutions. The Academy is envisioned to become a central hub of activities on training, consultancy work and entrepreneurship programs.

ABOUT NLP

Natural Language Processing (NLP) is one of the widest, core, prime and important area for researchers, educational sectors, business world and many organizations. **NLP** is a field of computer science, artificial intelligence and computational linguistics concerned with the interactions between computers and human (**natural**) languages, and, in particular, concerned with programming computers to fruitfully **process** large **natural language** corpora.

WHO SHOULD ATTEND

The program is open to faculty, research scholars and students from all the colleges and universities. Industry personnel working in the concerned/allied discipline may also apply.

OBJECTIVES OF THE FDP

- To provide exposure to the recent trends in Artificial intelligence and Natural language processing.
- To enable the participant to define a research problem and develop a suitable methodology for addressing the problem.
- To Make the participants understand, learn and use various analysis methods(tools) in NLP research.

EXPECTED OUTCOME

- Up-gradation of knowledge of participants in NLP thereby resulting in Enhanced teaching-learning process
- Demonstration of new technology to Participants
- Enhancing Participant's practical/hands on skill for set of NLP tools.
- Identification of clear and concise research Problem (Ph.D.) in NLP domain.
