

# Online Training & Project Based Internship by EICT Academy

**Duration: 2 - 4 months starting January 11, 2021**

## Online Training & Project-Based Internships in Niche Areas

The Academy offers 2 to 4 months online training and project-based internship (OT- PBI) on niche areas of science and engineering and cutting-edge technologies.

Topics include

- Artificial Intelligence and Machine Learning including Deep Learning
- Data Science, Python Programming for Scientific Computing
- Natural Language Processing. Social Network Analysis
- Internet of Things,
- Smart Manufacturing, 3D Printing,
- Blockchain Technology
- 5G Communication.
- Robotics and AI

## Expert Lectures and Hands-on Sessions [2-3 hours every day]

Apart from online instructor led training, the students will be trained on applying the methods and techniques on real-world problems in various domains including healthcare, human computer interaction, agriculture and manufacturing. Rigorous training will be given on implementation of technologies in research and industry problems.

## Who Can Join?

Freshers, undergraduate students from science and engineering background and faculty from educational institutions.

## OT-PBI Registration Fee

The registration fee is based on the duration of the internship. It can be paid in monthly installments as follows.

- 3 or 4months OT-PBI: Rs. 4,000/- per month.
- 2 months OT-PBI: Rs. 5,000/- per month.
